P HWK R G V # R U # R O Y I Q J # X D G U D W I F # I T X D W I R Q V #

**Directions:**

- State the method you would use to solve each of the given equation. Be prepared to justify your choice
- DO NOT SOLVE, just decide or select the best method

$$x^2 - 6x - 7 = 0 \#$$

$$2x^2 - 3x - 5 = 0 \#$$

$$n^2 - 10n - 22 = 2 \#$$

$$y^2 + 3y - 12 = 6 \#$$

$$8x^2 - 6 = 306 \#$$
